

"I have finally found a group that I can enthusiastically recommend."

—Michael McPherson, MD  
E.R. Physician, Texas

It's time to take your nights back! We know that nighttime and weekend coverage is a major concern for many radiology practices. Our highly qualified team of licensed, E.R. specialist radiologists will ensure that you have the best possible coverage. We'll work with you how you want, when you want.

Our goal is to improve the lifestyle and professional satisfaction of your radiologists. We want to supplement your coverage, not replace it.

## Our Services

Whether you need preliminary reads or final interpretations, our skilled radiologists will help. Professional Radiology Solutions (PRS), with our strategic partners, is able to offer coverage that will ensure your success and satisfaction.

- ✓ Night coverage
- ✓ Weekend coverage
- ✓ Vacation coverage
- ✓ Complex "high-end" interpretation
- ✓ Overflow reading
- ✓ Professional Consultation
- ✓ Daytime interpretation (as needed)

## Technology & Credentialing

The PRS team is experienced in the process of network integration and credentialing. Our PACS system can easily and seamlessly integrate with a multitude of DICOM compliant systems or gateways. The entire process, including credentialing can be complete within 2-4 weeks (we will take care of all legwork and primary source verifications) or sooner.

## What Sets Us Apart?

- Boutique firm specializing in "dedicated" service. *We will never assign more than three radiologists to any individual account*
- Expert radiologists (Harvard, UCSF and UCLA trained)
- Flexibility
  - Preliminary interpretation
  - Definitive interpretation
  - Flexible staffing hours
  - No nightly minimums
- Support
  - 24-7-365 technology support
  - Live image tracking and troubleshooting
  - Integration to customer RIS/ Transcription available for final reports
- Quality
  - Board certified, E.R. specialized
  - Structured, detailed reports
  - Typed reports with auto fax routing
- Call center access
